Walton County Public Schools

Theo Stone
Atwell Engineering

WHEREAS, the Georgia Chapter of the Association for Learning Environments (GA4LE) believe that membership in the Association for Learning Environments (A4LE) is beneficial for all public school districts in Georgia and desires to increase its overall membership and association with the international organization,

WHEREAS, the GA4LE board worked with its sponsors and membership to amend and approve Bylaws on December 10, 2018 that include the provision “to offer/provide all public K-12 school districts in Georgia with an individual school district membership to A4LE”,

WHEREAS, “Any member in good standing of A4LE whose residence and/or place of business is in the geographical area of Georgia shall automatically become a member of this Chapter unless otherwise specified by the member”,

WHEREAS, “Membership privileges shall include:

1. The right to vote at Chapter meetings
2. Stand for Election on the Board of Directors
3. Serve on Chapter committees
4. Participation in Chapter activities and events
5. Access to the GA4LE and A4LE websites”,

BE IT THEREFORE RESOLVED, that GA4LE hereby offers and commits to pay for the price of one individual membership registration fee (\$135.00) for the school administrator associated with construction and/or facilities at each Georgia K-12 school district annually, until requested to alter such membership, the school system desires to cancel such membership or GA4LE deems it can no longer afford to offer such benefits. If a district chooses to participate in a higher level membership GA4LE will credit them the same amount as the individual membership cost (\$135.00).

To receive the noted benefits, please fill out a membership application form and return it to GA4LE.
